Success for All Students
We use a team approach to school improvement planning. The team includes representatives from each department and subject area who meet regularly throughout the year. Staff analyzes current data and works toward teaching strategies with all students in mind. SBA scores, SAT/ACT results, AP testing, student behavior and attendance data are reviewed by staff members in small and large groups. Observations and narratives are crafted to formulate goals. You may view the results of our assessment data, graduation rates, and other student measures online at http://reportcard.ospi.k12.wa.us.

Our current Improvement plan focuses on making sure all 9th grade students are on track for graduation and that we are providing a safe and supportive learning environment for all students.

District Mission
The mission of our district is to equip our students with the knowledge and skills to succeed and prosper in an ever-changing global society.
