MMS Beliefs
- Family is the most important factor in the development of the individual.
- A safe and orderly environment is essential to teaching and learning.
- Education is the most important assist in maximizing the opportunities of an individual and community.
- Every person has a voice and is worthy of respect.
- Every person has the capacity to learn.
- Every person deserves the opportunity to succeed.
- Each person is responsible for his or her own actions.
- Faith gives meaning and purpose to life.
- Students are at the core of all educational decision making.
- Embracing diversity strengthens our community.

Mission Statement
Memorial Middle School is a diverse learning community that inspires and motivates students to become responsible, educated citizens by fostering academic excellence, creativity, and student empowerment to enhance the growth and development of the “whole” child.

Parameters
- We will make all decisions based solely on the best interest of the student.
- We will provide all students with open and equitable access to rigor.
- We will always honor the worth and integrity of each person.
- We will only engage in activities that support our instructional program.
- We will prevent external factors from adversely affecting our pursuit of excellence.
- We will expect the best of everyone.
Objectives

I. All students will show academic growth on local, state, and national assessments.
II. A variety of extra-curricula activities will be offered to enhance the growth and development of the “whole” child.
III. Students will be internally motivated to establish mutual respect in relationships with others.
IV. All students are exposed to opportunities to participate in community service for character enhancement and the development of life-long goals.
V. Students will be equipped with current technology to enhance and apply higher-order thinking skills in an authentic setting to develop electronic and web-based products.

Strategies

I. We will provide a learning environment that stimulates academic growth and is embedded in research-based instructional strategies.
II. We will provide on-going, extra-curricular opportunities that will be available to all students.
III. We will establish a learning environment with consistent expectations for the mutual respect of others.
IV. We will build relationships with community partners to provide avenues for students to participate in community service.
V. We will provide 21st century technological resources to maximize the pursuit of academic excellence.
