

Dear Millis families,

We are excited to announce our partnership with Family Zone to provide our school communities cyber safety education. Family Zone, a leading education technology company, has a team of cyber safety and tech experts that work together to enable families to navigate the internet in a safer way. This partnership provides our district with tools, resources, and expert advice on all the latest cyber safety topics. As members of the Millis Schools learning community, you have access to this platform <https://millisps.cybersafetyhub.com/> where you can receive educational materials that will assist you in managing cyber safety for your family.

Parent Advice Guides

- Expert advice on how to identify the biggest cyber safety issues your child could be dealing with from cyberbullying to screen time to online predators
- Step-by-step recommendations on what you can do about it
