See how our low cost of living in Greater Green Bay compares to the country.

**Chicago compared to Northeast Wisconsin**

In metro Chicago, a nicely updated 4-bedroom, 3-bath, 2,400 square-foot home built in 1889 can be yours for $650,000.

On the other hand, in Green Bay, a similar home of age and character will cost you $139,900.

Conversely, a 2-bedroom, 2-bathroom, 1,310 square-foot condo in Green Bay commands $189,900. To top it off, these condos are right on the Fox River and Trail.

**Los Angeles compared to Northeast Wisconsin**

There are even larger disparities when you compare Green Bay to the west coast. In Los Angeles, a 2-bedroom, 2-bathroom, 1,200 square-foot condo will fetch $879,000.

**Connectivity**

Brown County has made significant investments in broadband and fiber connectivity dating back to 2007 when the Brown County Community Area Network (BCCAN) was established.

To learn more about BCCAN visit: https://www.browncountywi.gov/departments/technology-services/bccan/

For a Wisconsin broadband map, visit: https://maps.psc.wi.gov/apps/WisconsinBroadbandMap/

BCCAN consists of approximately **95 miles**

of underground fiber infrastructure with additions planned in the future.

**93.2%**

of those in Brown County have access to broadband 100mbps or faster.

Source: Broadbandnow

For more information on Wisconsin energy usage and consumption visit: https://broadbandnow.com/Wisconsin

Source: U.S. Energy Information Administration
Incentives/tax rates

Manufacturing and Agriculture Credit
The State of Wisconsin provides an income tax incentive to manufacturers to maximize their production in Wisconsin. Chief among them is the Manufacturing and Agriculture Credit that virtually eliminates the tax on income from manufacturing activity in the state.

The credit amounts to 7.5% of “eligible qualified production activities income,” resulting in an effective corporate tax rate of 0.4% as of 2016.

For more information on the Manufacturing and Agriculture tax Credit, visit: https://wedc.org/programs-and-resources/wisconsin-manufacturing-and-agriculture-credit/

Various resources to assist in the areas of:
- Business Development and Attraction
- International Business Development
- Entrepreneurship and Innovation
- Community Development

For more information on Incentives and economic development resources, contact the Greater Green Bay Chamber’s economic development team at 920-496-9010.

Water

Drinking water

Central Brown County Water Authority
De Pere, Allouez, Bellevue, Howard, Lawrence and Ledgeview are served by the Central Brown County Water Authority, which purchases treated water from Manitowoc Public Utilities and transports it to the area.

The authority currently has capacity to supply up to 20 million gallons per day (MGD), with the ability to expand up to 40 MGD to accommodate growth. The authority has 11.5 million gallons of storage, allowing for improved energy conservation and emergency reserves, and 65 miles of distribution system. Each member community independently maintains and operates its own water systems and sets its own water rates. Members retain existing wells to be used as an emergency back-up supply.

Green Bay Water Utility
The Green Bay Water Utility is the Wisconsin’s third-largest tap water supplier, with more than 100,000 customers in the City of Green Bay and thousands more in the Village of Ashwaubenon, Town of Scott, Village of Hobart and Village of Wrightstown. Raw water comes from Lake Michigan in Kewaunee, more than a mile from shore and 60 feet deep. The nonprofit uses a six-step treatment process to make the water safe to drink, and it undergoes 10,000 quality tests every year. In 2016, the Green Bay Water Utility won best-tasting drinking water from the Wisconsin chapter of the American Water Works Association. Customers within City of Green Bay limits receive the water through 440 miles of pipes, paying only about one penny for three gallons—the lowest price in Brown County.

Average demand per day 6.6 million gallons
Maximum capacity per day 20 million gallons

Average demand per day 18 million gallons
Maximum capacity per day 42 million gallons

Source: www.cbcwaterauthority.com
NEW Water is a water resource utility serving Northeast Wisconsin through pollution prevention, operational innovation and community outreach. NEW Water takes the water used by businesses, industries, schools and the people of the greater Green Bay area, and returns it clean to the environment. As a wholesale provider, NEW Water has 15 municipal customers and serves a 285-square-mile area.

The National Association of Clean Water Agencies has lauded NEW Water with Platinum status for achieving 17 consecutive years of 100% permit compliance. In 2019, NEW Water received a Utility of the Future Award for its forward-thinking approach to utility management and resource recovery.

College of Menominee Nation

Your academic source for learning about and working with Wisconsin tribal communities, governments and entrepreneurs

- Academic degree, professional development and technical diploma programs designed to foster success in a multicultural world
- Applied research projects to bridge the interests and concerns of American Indian and non-Indian businesses, organizations, and students
- Information grounded on first-hand experience in multicultural education and tribal business, public policy and sustainability practices
- A federally-recognized Land Grant institution in operation since 1993
- One of only 37 accredited tribal colleges in the U.S.
- Campuses in Keshena and metropolitan Green Bay
- Enrollment and services open to all
